XC FRONTIER
Productivity reinvented.

The illusion of desktop. The reality of leveraging the cloud.

Battling with:
- ❑ Employees located in remote areas
- ❑ Limited access to relevant tools and systems
- ❑ Limited connectivity and cost issues
- ❑ Security concerns and compromised data
- ❑ High IT operational costs
- ❑ No IT technical skills inhouse
- ❑ Security concerns and compromised data

Time to realise:
- ❑ Cost savings
- ❑ Minimal bandwidth usage
- ❑ Ability to use various devices
- ❑ Always on security
- ❑ Increased work performance
- ❑ Integration with your Microsoft Platform

What is XCFrontier?

Our innovative approach to working remotely. Faster internet browsing, accessing and working with software applications such as Microsoft Office Suite or other applications with minimal data usage.

Cost reduction
- Focused on the application not the desktop
- Minimal data usage through just screen updates to user device

Decreased bandwidth usage by 1/10th of average corporate usage

Increased security
- Enhances security and information protection as data is not stored on the device
- All processing in the cloud

Multi-layered security inside and outside of your business

Improved productivity
- Enables mobility – working from anywhere, delivering results
- Works independent of user device

Increased productivity by at least 20%

Some of our customers:

AA   Golden Snacks

"We use XCFrontier internally. Work productivity has increased dramatically and we're able to support customers with great turnaround time. Even our developers have seen great response times working remotely."

Danie de Lange, Managing Director, XContent Business Solutions

XContent®
Your business potential unlocked

XCFrontier – unique application cloud technology – your best work from anywhere, anytime.
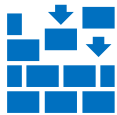

Cost Savings

- Data usage decreases
- Approximately 1/10th less usage per average corporate company usage
- Saving time and money = business agility

Uptime and improved work performance

- Easy and fast employee access to tools/systems
- Approximately 20% work productivity
- Access and uptime = business speed

Security built right in

- Data and company information is safe due to restricted saving capability
- See a decrease in security breaches/alerts
- Secure environment – business agility

XCFrontier and Office 365. Made for each other.

Microsoft Azure to maximise performance.

XContent professional services to make it happen.

An offer to get you started

An easy monthly subscription – pay only for what you use.

Managed Services	Cloud Services

SPEED (productivity) **AGILITY** (optimisation) **GROWTH** (client connection) **TRUST** (the currency of business)
